REGULATORY FRAMEWORK

Registration

4. (1) Every Systemically Important Core Investment Company (CIC-ND-SI) shall, within a period of six months from the date of this Notification, apply to the Reserve Bank of India for grant of Certificate of Registration, irrespective of any advise in the past, issued by the Reserve Bank of India, to the contrary.

(2) A CIC-ND-SI which applies for grant of Certificate of Registration to the Reserve Bank of India within the said period of six months shall be entitled to continue to carry on its existing businesses as Core Investment Company, till the disposal of its application by Reserve Bank of India.

(3) Every Core Investment Company shall apply to the Reserve Bank of India for grant of Certificate of Registration within a period of three months from the date of becoming a CIC-ND-SI.

Capital Requirements

5. Adjusted Net Worth of a CIC-ND-SI shall at no point of time be less than 30% of its aggregate risk weighted assets on balance sheet and risk adjusted value of off-balance sheet items as on the date of the last audited balance sheet as at the end of the financial year.

Explanations

On balance sheet assets

(1) In these Directions, degrees of credit risk expressed as percentage weightages have been assigned to balance sheet assets. Hence, the value of each asset / item requires to be multiplied by the relevant risk weights to arrive at risk adjusted value of assets. The aggregate shall be taken into account for reckoning the minimum capital ratio. The risk weighted asset shall be calculated as the weighted aggregate of funded items as detailed hereunder:

Weighted risk assets - On-Balance Sheet items	Percentage weight
(i) Cash and bank balances including fixed deposits and certificates of deposits with banks	0
(ii) Investments	
(a) Approved securities [Except at (c) below]	0
(b) Bonds of public sector banks	20
(c) Fixed deposits/certificates of deposits/ bonds of public financial institutions	100
(d) Shares of all companies and debentures / bonds/commercial papers of all companies and units of all mutual funds	100
(iii) Current assets	
(a) Stock on hire (net book value)	100
(b) Intercompany loans/deposits	100
(c) Loans and advances fully secured against deposits held	0
(d) Loans to staff	0
(e) Other secured loans and advances considered good	100
(f) Bills purchased/discounted	100
(g) Others (To be specified)	100
(iv) Fixed Assets (net of depreciation)	
(a) Assets leased out (net book value)	100
(b) Premises	100
(c) Furniture & Fixtures	100
(v) Other assets	
(a) Income tax deducted at source (net of provision)	0
(b) Advance tax paid (net of provision)	0
(c) Interest due on Government securities	0
(d) Others (to be specified)	100

Notes:

- (1) Netting may be done only in respect of assets where provisions for depreciation or for bad and doubtful debts have been made.
- (2) Assets which have been deducted from owned fund to arrive at net owned fund shall have a weightage of 'zero'.

(3) While calculating the aggregate of funded exposure of a borrower for the purpose of assignment of risk weight, such non-banking financial companies may net off the amount of cash margin/caution money/security deposits (against which right to set-off is available) held as collateral against the advances out of the total outstanding exposure of the borrower.

(4) The counterparty credit risk, arising out of exposure of CICs-ND-SI to CCIL on account of securities financing transactions (CBLOs) will carry a risk weight of zero, as it is presumed that the CCP's exposures to their counterparties are fully collateralised on a daily basis, thereby providing protection for the CCP's credit risk exposures. The deposits / collaterals kept by CICs-ND-SI with CCIL will attract a risk weight of 20%.

Off-balance sheet items

(2) In these Directions, degrees of credit risk exposure attached to off-balance sheet items have been expressed as percentage of credit conversion factor. Hence, the face value of each item requires to be first multiplied by the relevant conversion factor to arrive at risk adjusted value of off-balance sheet item. The aggregate shall be taken into account for reckoning the minimum capital ratio. This shall have to be again multiplied by the risk weight of 100. The risk adjusted value of the off-balance sheet items shall be calculated as per the credit conversion factors of non-funded items as detailed hereunder : -

Nature of item	Credit conversion factor Percentage
i) Financial & other guarantees	100
ii) Share/debenture underwriting obligations	50
iii) Partly-paid shares/debentures	100
iv) Bills discounted/rediscounted	100
v) Lease contracts entered into but yet to be executed	100

Leverage Ratio

6. The outside liabilities of a CIC-ND-SI shall at no point of time exceed 2.5 times its Adjusted Net Worth as on the date of the last audited balance sheet as at the end of the financial year.

Submission of Annual Statutory Auditors Certificate

7. Every CIC-ND-SI shall submit an annual certificate from its statutory auditors regarding compliance with the requirements of these directions within a period of one month from the date of finalisation of the balance-sheet.

PART III**MISCELLANEOUS****Exemptions**

8. The Reserve Bank of India may, if it considers it necessary for avoiding any hardship for any other just and sufficient reason, grant extension of time to comply with or exempt any CIC-ND-SI from all or any of the provisions of these Directions either generally or for any specified period, subject to such conditions as the Reserve Bank of India may impose.

Interpretations

9. For the purpose of giving effect to the provisions of these Directions, the Reserve Bank of India may, if it considers necessary, issue necessary clarifications in respect of any matter covered herein and the interpretation of any provision of these Directions given by the Reserve Bank of India shall be final and binding on all the parties concerned.
