DNBS (PD) CC.No.371/03.05.02/2013-14 **March 21, 2014**

All NBFCs

Dear Sirs,

Early Recognition of Financial Distress, Prompt Steps for Resolution and Fair Recovery for Lenders: Framework for Revitalising Distressed Assets in the Economy

Please refer to the Framework for Revitalising Distressed Assets in the Economy (Framework) issued by the Reserve Bank on January 30, 2014. The framework covered in the guidelines, which would be fully effective from April 1, 2014, has outlined a corrective action plan that will incentivize early identification of problem account, timely restructuring of accounts which are considered to be viable, and taking prompt steps by lenders for recovery or sale of unviable accounts. In the background of the above, to the extent it is applicable to NBFCs, the following guidelines are issued to NBFCs.

2. Corrective Action Plan to arrest increasing NPAs

2.1 Early Recognition of Stress and Reporting to Central Repository of Information on Large Credits (CRILC)

2.1.1 Before a loan account turns into an NPA, NBFCs will be required to identify incipient stress in the account by creating a sub-asset category viz. 'Special Mention Accounts' (SMA) with the three sub-categories as given in the table below:

SMA Sub-categories	Basis for classification
SMA-0	Principal or interest payment not overdue for more than 30 days but account showing signs of incipient stress as illustrated in the annex to the framework of Jan 30, 2014[1]
SMA-1	Principal or interest payment overdue between 31-60 days
SMA-2	Principal or interest payment overdue between 61-180 days

[1] An illustrative list of signs of stress for categorising an account as SMA-0 is given in Annex I

2.1.2 The Reserve Bank of India has set up a Central Repository of Information on Large Credits (CRILC) to collect, store, and disseminate credit data to lenders as advised by the Bank in its Circular dated February 13, 2014 issued by the Department of Banking Supervision. All systemically important non-banking financial companies (NBFC-ND-SI), NBFCs-D and all NBFC-Factors, (Notified NBFCs, for short) shall be required to report the relevant credit information on a quarterly basis in the enclosed formats given in Annex II to CRILC once the XBRL reporting mechanism is established. Till then they shall forward the information to PCGM, Department of Banking Supervision, Reserve Bank of India, World Trade Centre, Mumbai – 400 005 in hard copy. The data includes credit information on all the borrowers having aggregate fund-based and non-fund based exposure of Rs.50 million and above with them and the SMA status of the borrower. The Notified NBFCs shall be ready with the correct PAN details of their borrowers having fund based and/or non-fund based exposure of Rs. 50 million and above duly authenticated from Income Tax records.

2.1.3 Individual notified NBFCs shall closely monitor the accounts reported as SMA-1 or SMA-0 as these are the early warning signs of weaknesses in the account. They should take up the issue with the borrower with a view to rectifying the deficiencies at the earliest. However, as soon as an account is reported as SMA-2 by one or more lending banks/notified NBFCs, this will trigger the mandatory formation of a Joint Lenders' Forum (JLF) and formulation of Corrective Action Plan (CAP)[2] as envisioned in Para 2.3 of the Framework. Notified NBFCs must put in place a proper Management Information and Reporting System so that any account having principal or interest overdue for more than 60 days gets reported as SMA-2 on the 61st day itself in the format given in Annex III, in hard copy to PCGM, Department of Banking Supervision, Reserve Bank of India, World Trade Centre, Mumbai – 400 005. NBFCs shall endeavour to put in place an XBRL reporting framework at the earliest.

[2] Details as applicable to NBFCs are given in Annex IV

2.2 Accelerated Provisioning

2.2.1 In cases where NBFCs fail to report SMA status of the accounts to CRILC or resort to methods with the intent to conceal the actual status of the accounts or evergreen the account, NBFCs will be subjected to accelerated provisioning for these accounts and/or other supervisory actions as deemed appropriate by RBI. The current provisioning requirement and the revised accelerated provisioning in respect of such non performing accounts are as under:

Asset Classification	Period as NPA	Period as NPA For NBFCs	Current *provisioning (%) NBFCs	Revised accelerated provisioning (%) for banks and proposed for NBFCs
Sub- standard (secured)	Up to 6 months			No change
	6 months to 1 year	6 months to 1 and half year	For secured and unsecured 10	25
Sub-standard (unsecured ab-initio)	Up to 6 months	--		25
		--		
	6 months to 1 year	6 months to 1 and half year	10	40
		6 months to 1 and half year	10	
Doubtful I	2nd year	Upto One year (secured portion)	20	40 (secured portion)
		Up to one year (unsecured portion)	100	100 (unsecured portion)
		1-3 years	30 for secured portion and 100 for unsecured portion	For NBFCs the above may be adopted i.e. 40 and 100
Doubtful II	3rd& 4th year	More than Three Years	100 for unsecured portion and 50 for secured portion	100 for both secured and unsecured portions
Doubtful III	5th year onwards			100

2.2.2 Further, any of the lenders who have agreed to the restructuring decision under the CAP by JLF and is a signatory to the Inter Creditor Agreement (ICA) and Debtor Creditor Agreement (DCA), but changes their stance later on, or delays/refuses to implement the package, will also be subjected to accelerated provisioning requirement as indicated above, on their exposure to this borrower i.e., if it is classified as an NPA. If the account is standard in those lenders' books, the provisioning requirement would be 5%. Further, any such backtracking by a lender might attract negative supervisory view during Supervisory Review and Evaluation Process.

2.2.3 Presently, asset classification is based on record of recovery at individual NBFCs and provisioning is based on asset classification status at the level of each NBFCs. However, if lenders fail to convene the JLF or fail to agree upon a common CAP within the stipulated time frame, the account will be subjected to accelerated provisioning as indicated above, if it is classified as an NPA. If the account is standard in those lenders' books, the provisioning requirement would be 5%.

2.3 "Non-Co-operative borrowers"

2.3.1 All Notified NBFCs shall identify "non-co-operative borrowers*". A " non-co-operative borrower" is defined as* one who does not provide necessary information required by a lender to assess its financial health even after 2 reminders; or denies access to securities etc. as per terms of sanction or does not comply with other terms of loan agreements within stipulated period; or is hostile / indifferent / in denial mode to negotiate with the NBFC on repayment issues; or plays for time by giving false impression that some solution is on horizon; or resorts to vexatious tactics such as litigation to thwart timely resolution of the interest of the lender/s. The borrowers will be given 30 days' notice to clarify their stand before their names are reported as non-cooperative borrowers.

2.3.2 With a view to discouraging borrowers/defaulters from being unreasonable and non-cooperative with lenders in their bonafide resolution/recovery efforts, NBFCs may classify such borrowers as non-cooperative borrowers, after giving them due notice if satisfactory clarifications are not furnished. Notified NBFCs will be required to report classification of such borrowers to CRILC. Further, NBFCs will be

required to make higher/accelerated provisioning in respect of new loans/exposures to such borrowers as also new loans/exposures to any other company promoted by such promoters/ directors or to a company on whose board any of the promoter / directors of this non-cooperative borrower is a director. The provisioning applicable in such cases will be at the rate of 5% if it is a standard account and accelerated provisioning, if it is an NPA. This is a prudential measure since the expected losses on exposures to such non-cooperative borrowers are likely to be higher.

3. Board Oversight

3.1 The Board of Directors of NBFCs will take all necessary steps to arrest the deteriorating asset quality in their books and should focus on improving the credit risk management system. Early recognition of problems in asset quality and which resolution envisaged in the Framework requires the lenders to be proactive and make use of CRILC as soon as it becomes functional.

3.2 Boards should ensure that a policy is put in place for timely provision of credit information to and access to credit information from CRILC, prompt formation of JLFs, monitoring the progress of JLFs and periodical review of the above policy.

4.Credit Risk Management

4.1 Notified NBFCs should carry out their independent and objective credit appraisal in all cases of lending and must not depend on credit appraisal reports prepared by outside consultants, especially the in-house consultants of the borrowing entity. They should carry out sensitivity tests/scenario analysis, especially for infrastructure projects, which should, inter alia, include project delays and cost overruns. This will aid in taking a view on viability of the project at the time of deciding Corrective Action Plan (CAP). NBFCs should ascertain the source and quality of equity capital brought in by the promoters /shareholders. Multiple leveraging, especially, in infrastructure projects, is a matter of concern as it effectively camouflages the financial ratios such as Debt/Equity ratio, leading to adverse selection of the borrowers. Therefore, NBFCs should ensure at the time of credit appraisal that debt of the parent company is not infused as equity capital of the subsidiary/SPV.

4.2 While carrying out the credit appraisal, notified NBFCs should verify as to whether the names of any of the directors of the companies appear in the list of defaulters by way of reference to DIN/PAN etc. Further, in case of any doubt arising on account of identical names, NBFCs should use independent sources for confirmation of the identity of directors rather than seeking declaration from the borrowing company.

4.3 In addition to the above, notified NBFCs are advised that with a view to ensuring proper end-use of funds and preventing diversion/siphoning of funds by the borrowers, NBFCs could consider engaging their own auditors for such specific certification purpose without relying on certification given by borrower's auditors. However, this cannot substitute NBFC's basic minimum own diligence in the matter.

5. Registration of Transactions with CERSAI

5.1 A reference is invited to DNBS.(PD).CC.No.360/03.10.001/2013-14 November 12, 2013 on Filing of records of Equitable Mortgages with the Central Registry, wherein all NBFCs were advised to file and register the records of all equitable mortgages created in their favour on or after 31st March 2011 as and when equitable mortgages are created in their favour, with the Central Registry of Securitisation Asset Reconstruction and the Security Interest of India (CERSAI). In continuation of the above, NBFCs are further advised to register all types of mortgages with CERSAI.

6.Purchase/Sale of Non-Performing Financial Assets to Other Banks/FIs/NBFCs

6.1 DBOD Circular on Guidelines on Sale/Purchase of Non-Performing Financial Assets' (also applicable to NBFCs) as consolidated and updated in DBOD Master Circular 'Prudential Norms on Income Recognition, Asset Classification and Provisioning pertaining to Advances', inter-alia, prescribes the following:

A non-performing asset in the books of a bank shall be eligible for sale to other banks only if it has remained a non-performing asset for at least two years in the books of the selling bank.

A non-performing financial asset should be held by the purchasing bank in its books at least for a period of 15 months before it is sold to other banks

6.2 In partial modification to the above, it is advised that NBFCs will be permitted to sell their NPAs to other banks/FIs/NBFCs (excluding SCs/RCs) without any initial holding period. However, the non-performing financial asset should be held by the purchasing bank/FI/NBFC in its books at least for a period of 12 months before it is sold to other banks/financial institutions/NBFCs (excluding SCs/RCs). The extant prudential norms on asset classification of such assets in the books of purchasing banks/FIs/NBFCs will remain unchanged.

7. The guidelines will be effective from April 1, 2014.

Yours faithfully,

(N.S.Vishwanathan)
Principal Chief General Manager

Annex I

SMA-0 Signs of Stress

Illustrative list of signs of stress for categorising an account as SMA-0:

1. Delay of 90 days or more in (a) submission of stock statement / other stipulated operating control statements or (b) credit monitoring or financial statements or (c) non-renewal of facilities based on audited financials.

2. Actual sales / operating profits falling short of projections accepted for loan sanction by 40% or more; or a single event of non-cooperation / prevention from conduct of stock audits by NBFCs or evidence of diversion of funds for unapproved purpose.

3. Return of 3 or more cheques (or electronic debit instructions) issued by borrowers in 30 days on grounds of non-availability of balance/DP in the account or return of 3 or more bills / cheques discounted or sent under collection by the borrower.

4. Devolvement of Deferred Payment Guarantee (DPG) instalments or invocation of Bank Guarantees (BGs) and its non-payment within 30 days.

5. Third request for extension of time either for creation or perfection of securities as against time specified in original sanction terms or for compliance with any other terms and conditions of sanction.

6. The borrower reporting stress in the business and financials.

7. Promoter(s) pledging/selling their shares in the borrower company due to financial stress.

****

Annex IV

Formation of Joint Lenders Forum (JLF)

Notified NBFCs are advised that as soon as an account is reported by any of the lenders to CRILC as SMA-2, they should mandatorily form a committee to be called Joint Lenders' Forum (JLF) if the aggregate exposure (AE) [fund based and non-fund based taken together] of lenders in that account is Rs 1000 million and above. Lenders also have the option of forming a JLF even when the AE in an account is less than Rs.1000 million and/or when the account is reported as SMA-0 or SMA-1.

1.2 While the existing Consortium Arrangement for consortium accounts will serve as JLF with the Consortium Leader as convener, for accounts underMultiple Banking Arrangements (MBA), the lender with the highest AE will convene JLF at the earliest and facilitate exchange of credit information on the account. In case there are multiple consortium of lenders for a borrower (e.g. separate consortium for working capital and term loans), the lender with the highest AE will convene the JLF.

1.3 It is possible that a borrower may request the lender/s, with substantiated grounds, for formation of a JLF on account of imminent stress. When such a request is received by a lender, the account should be reported to CRILC as SMA-0, and the lenders should also form the JLF immediately if the AE is Rs. 1000 million and above. It is, however, clarified that for the present, JLF formation is optional in other cases of SMA-0 reporting.

1.4 All the lenders should formulate and sign an Agreement (which may be called JLF agreement) incorporating the broad rules for the functioning of the JLF. The Indian Banks' Association (IBA) would prepare a Master JLF agreement and operational guidelines for JLF which could be adopted by all lenders. The JLF should explore the possibility of the borrower setting right the irregularities/weaknesses in the account. The JLF may invite representatives of the Central/State Government/Project authorities/Local authorities, if they have a role in the implementation of the project financed.

1.5 While JLF formation and subsequent corrective actions will be mandatory in accounts having AE of Rs.1000 million and above, in other cases also the lenders will have to monitor the asset quality closely and take corrective action for effective resolution as deemed appropriate.

2 Corrective Action Plan (CAP) by JLF

2.1 The JLF may explore various options to resolve the stress in the account. The intention is not to encourage a particular resolution option, e.g. restructuring or recovery, but to arrive at an early and feasible solution to preserve the economic value of the underlying assets as well as the lenders' loans. The options under CAP by the JLF would generally include:

(a) Rectification - Obtaining a specific commitment from the borrower to regularise the account so that the account comes out of SMA status or does not slip into the NPA category. The commitment should be supported with identifiable cash flows within the required time period and without involving any loss or sacrifice on the part of the existing lenders. If the existing promoters are not in a position to bring in additional money or take any measures to regularise the account, the possibility of getting some other equity/strategic investors to the company may be explored by the JLF in consultation with the borrower. These measures are intended to turn-around the entity/company without any change in terms and conditions of the loan. The JLF may also consider providing need based additional finance to the borrower, if considered necessary, as part of the rectification process. However, it should be strictly ensured that additional financing is not provided with a view to ever-greening the account.

(b) Restructuring - Consider the possibility of restructuring the account if it is prima facie viable and there is no diversion of funds, fraud or malfeasance, etc. At this stage, commitment from promoters for extending their personal guarantees along with their net worth statement supported by copies of legal titles to assets may be obtained along with a declaration that they would not undertake any transaction that would alienate assets without the permission of the JLF. Any deviation from the commitment by the borrowers affecting the security/recoverability of the loans may be treated as a valid factor for initiating recovery process. For this action to be

sustainable, the lenders in the JLF may sign an Inter Creditor Agreement (ICA) and also require the borrower to sign the Debtor Creditor Agreement (DCA) which would provide the legal basis for any restructuring process. The formats used by the Corporate Debt Restructuring (CDR) mechanism for ICA and DCA could be considered, if necessary with appropriate changes. Further, a 'stand still'[1] clause could be stipulated in the DCA to enable a smooth process of restructuring. The 'stand-still' clause does not mean that the borrower is precluded from making payments to the lenders. The ICA may also stipulate that both secured and unsecured creditors need to agree to the final resolution.

(c) Recovery - Once the first two options at (a) and (b) above are seen as not feasible, due recovery process may be resorted to. The JLF may decide the best recovery process to be followed, among the various legal and other recovery options available, with a view to optimising the efforts and results.

2.2 The decisions agreed upon by a minimum of 75% of creditors by value and 60% of creditors by number in the JLF would be considered as the basis for proceeding with the restructuring of the account, and will be binding on all lenders under the terms of the ICA. However, if the JLF decides to proceed with recovery, the minimum criteria for binding decision, if any, under any relevant laws/Acts would be applicable.

2.3 The JLF is required to arrive at an agreement on the option to be adopted for CAP within 30 days from (i) the date of an account being reported as SMA-2 by one or more lender, or (ii) receipt of request from the borrower to form a JLF, with substantiated grounds, if it senses imminent stress. The JLF should sign off the

[1] One of the important elements of DCA would be a 'stand still' agreement binding for the period from the date of signing of DCA to the date of approval of restructuring package as per the time frame indicated in paragraphs 2.3 and 2.4 of these Guidelines. Under this clause, both the debtor and creditor(s) shall agree to a legally binding 'stand-still' whereby both the parties commit themselves not to take recourse to any other legal action during the 'stand-still' period. This would be necessary to undertake the necessary debt restructuring exercise without any outside intervention, judicial or otherwise. However, the stand-still clause will be applicable only to any civil action either by the borrower or any lender against the other party and will not cover any criminal action. Further, during the stand-still period, outstanding foreign exchange forward contracts, derivative products, etc., can be crystallised, provided the borrower is agreeable to such crystallisation. The borrower will additionally undertake that during the stand-still period the documents will stand extended for the purpose of limitation and also that it will not approach any other authority for any relief and the directors of the borrowing company will not resign from the Board of Directors during the stand-still period.

detailed final CAP within the next 30 days from the date of arriving at such an agreement.

2.4 If the JLF decides on options 2.1 (a) or (b), but the account fails to perform as per the agreed terms under option (a) or (b), the JLF should initiate recovery under option 2.1 (c).

3. Restructuring Process

3.1 RBI's extant prudential guidelines on restructuring of advances lay down detailed methodology and norms for restructuring of advances under individual as well as multiple/ consortium arrangements. Corporate Debt Restructuring (CDR) mechanism is an institutional framework for restructuring of multiple/ consortium advances of banks and NBFCs where even creditors who are not part of CDR system can join by signing transaction to transaction based agreements.

3.2 If the JLF decides restructuring of the account as CAP, it will have the option of either referring the account to CDR Cell after a decision to restructure is taken under para 2.1 as indicated above or restructure the same independent of the CDR mechanism.

3.3 Restructuring by JLF

3.3.1 If the JLF decides to restructure an account independent of the CDR mechanism, the JLF should carry out the detailed Techno-Economic Viability (TEV) study, and if found viable, finalise the restructuring package within 30 days from the date of signing off the final CAP as mentioned in paragraph 2.3 above.

3.3.2 For accounts with AE of less than Rs.5000 million, the above-mentioned restructuring package should be approved by the JLF and conveyed by the lenders to the borrower within the next 15 days for implementation.

3.3.3 For accounts with AE of Rs.5000 million and above, the above-mentioned TEV study and restructuring package will have to be subjected to an evaluation by an

Independent Evaluation Committee (IEC)[2] of experts fulfilling certain eligibility conditions. The IEC will look into the viability aspects after ensuring that the terms of restructuring are fair to the lenders. The IEC will be required to give their recommendation in these cases to the JLF within a period of 30 days. Thereafter, considering the views of IEC if the JLF decides to go ahead with the restructuring, the restructuring package including all terms and conditions as mutually agreed upon between the lenders and borrower, would have to be approved by all the lenders and communicated to the borrower within next 15 days for implementation.

3.3.4 Asset Classification benefit as applicable under the extant guidelines will accrue to such restructured accounts as if they were restructured under CDR mechanism. For this purpose, the asset classification of the account as on the date of formation of JLF will be taken into account.

3.3.5 The above-mentioned time limits are maximum permitted time periods and the JLF should try to arrive at a restructuring package as soon as possible in cases of simple restructuring.

3.3.6 Restructuring cases will be taken up by the JLF only in respect of assets reported as Standard, SMA or Sub-Standard by one or more lenders of the JLF. While generally no account classified as doubtful should be considered by the JLF for restructuring, in cases where a small portion of debt is doubtful i.e. the account is standard/sub-standard in the books of at least 90% of creditors (by value), the account may then be considered under JLF for restructuring.

3.3.7 The viability of the account should be determined by the JLF based on acceptable viability benchmarks determined by them. Illustratively, the parameters may include the Debt Equity Ratio, Debt Service Coverage Ratio, Liquidity/Current Ratio and the amount of provision required in lieu of the diminution in the fair value of the restructured advance, etc. Further, the JLF may consider the benchmarks for the viability parameters adopted by the CDR mechanism (as mentioned in Appendix to the circular No.DNBS.CO.PD.No.367/03.10.01/2013-14 dated January 23, 2014 on 'Review of Prudential Guidelines on Restructuring of Advances by NBFCs' and adopt

[2] The constitution of the IEC and the funding needs for payment of fees for independent experts would be decided by Indian Banks' Association (IBA) in consultation with RBI.

the same with suitable adjustments taking into account the fact that different sectors of the economy have different performance indicators.

3.4 Restructuring Referred by the JLF to the CDR Cell

3.4.1 If the JLF decides to refer the account to CDR Cell after a decision to restructure is taken under para 2.1, the following procedure may be followed.

3.4.2 As the preliminary viability of account has already been decided by the JLF, CDR Cell should directly prepare the Techno-Economic Viability (TEV) study and restructuring plan in consultation with JLF within 30 days from the date of reference to it by the JLF.

3.4.3 For accounts with AE of less than Rs.5000 million, the above-mentioned restructuring package should be submitted to CDR Empowered Group (EG) for approval. Under extant instructions, CDR EG can approve or suggest modifications but ensure that a final decision is taken within a total period of 90 days, which can be extended up to a maximum of 180 days from the date of reference to CDR Cell. However, the cases referred to CDR Cell by JLF will have to be finally decided by the CDR EG within the next 30 days. If approved by CDR EG, the restructuring package should be approved by all lenders and conveyed to the borrower within the next 30 days for implementation.

3.4.4 For accounts with AE of Rs.5000 million and above, the TEV study and restructuring package prepared by CDR Cell will have to be subjected to an evaluation by an Independent Evaluation Committee (IEC)of experts. As stated in paragraph 3.3.3, composition and other details of the IEC would be communicated separately by IBA to banks. The IEC will look into the viability aspects after ensuring that the terms of restructuring are fair to the lenders. The IEC will be required to give their recommendation in these aspects to the CDR Cell under advice to JLF within a period of 30 days. Thereafter, considering the views of IEC if the JLF decides to go ahead with the restructuring, the same should be communicated to CDR Cell and CDR Cell should submit the restructuring package to CDR EG within a total period of 7 days from receiving the views of IEC. Thereafter, CDR EG should decide on the approval/modification/rejection within the next 30 days. If approved by CDR EG, the

restructuring package should be approved by all lenders and conveyed to the borrower within the next 30 days for implementation.

4. Other Issues/Conditions Relating to Restructuring by JLF/CDR Cell

4.1 Both under JLF and CDR mechanism, the restructuring package should also stipulate the timeline during which certain viability milestones (e.g.improvement in certain financial ratios after a period of time, say, 6 months or 1 year and so on) would be achieved. The JLF must periodically review the account for achievement/non-achievement of milestones and should consider initiating suitable measures including recovery measures as deemed appropriate.

4.2 Restructuring whether under JLF or CDR is to be completed within the specified time periods. The JLF and CDR Cell should optimally utilise the specified time periods so that the aggregate time limit is not breached under any mode of restructuring. If the JLF/CDR takes a shorter time for an activity as against the prescribed limit, then it can have the discretion to utilise the saved time for other activities provided the aggregate time limit is not breached.

4.3 The general principle of restructuring should be that the shareholders bear the first loss rather than the debt holders. With this principle in view and also to ensure more ‘skin in the game’ of promoters, JLF/CDR may consider the following options when a loan is restructured:

- Possibility of transferring equity of the company by promoters to the lenders to compensate for their sacrifices;
- Promoters infusing more equity into their companies;
- Transfer of the promoters’ holdings to a security trustee or an escrow arrangement till turnaround of company. This will enable a change in management control, should lenders favour it.

4.4 In case a borrower has undertaken diversification or expansion of the activities which has resulted in the stress on the core-business of the group, a clause for sale of non-core assets or other assets may be stipulated as a condition for restructuring

the account, if under the TEV study the account is likely to become viable on hiving-off of non-core activities and other assets.

4.5 For restructuring of dues in respect of listed companies, lenders may be ab-initio compensated for their loss/sacrifice (diminution in fair value of account in net present value terms) by way of issuance of equities of the company upfront, subject to the extant regulations and statutory requirements. In such cases, the restructuring agreement shall not incorporate any right of recompense clause. However, if the lenders' sacrifice is not fully compensated by way of issuance of equities, the right of recompense clause may be incorporated to the extent of shortfall. For unlisted companies, the JLF will have option of either getting equities issued or incorporate suitable 'right to recompense' clause.

4.6 In order to distinguish the differential security interest available to secured lenders, partially secured lenders and unsecured lenders, the JLF/CDR could consider various options like:

- Prior agreement in the ICA among the above classes of lenders regarding repayments, say, as per an agreed waterfall mechanism;
- A structured agreement stipulating priority of secured creditors;
- Appropriation of repayment proceeds among secured, partially secured and unsecured lenders in certain pre-agreed proportion.

The above is only an illustrative list and the JLF may decide on a mutually agreed option. It also needs to be emphasised that while one lender may have a better security interest when it comes to one borrower, the case may be vice versa in the case of another borrower. So, it would be beneficial if lenders appreciate the concerns of fellow lenders and arrive at a mutually agreed option with a view to preserving the economic value of assets. Once an option is agreed upon, the lender having the largest exposure may take the lead in ensuring distribution according to agreed terms once the restructuring package is implemented.

4.7 As regards prudential norms and operational details, RBI's guidelines on CDR Mechanism, will be applicable to the extent that they are not inconsistent with these guidelines.

5. Prudential Norms on Asset Classification and Provisioning

5.1 While a restructuring proposal is under consideration by the JLF/CDR, the usual asset classification norm would continue to apply. The process of re-classification of an asset should not stop merely because restructuring proposal is under consideration by the JLF/CDR.

5.2 However, as an incentive for quick implementation of a restructuring package, the special asset classification benefit on restructuring of accounts as per extant instructions would be available for accounts undertaken for restructuring under these guidelines, subject to adherence to the overall timeframe for approval of restructuring package detailed in paragraphs 3.3 and 3.4 above and implementation of the approved package within 90 days from the date of approval. The asset classification status as on the date of formation of JLF would be the relevant date to decide the asset classification status of the account after implementation of the final restructuring package. As advised to NBFCs vide RBI circular dated January 23, 2014, the special asset classification benefit as above will however be withdrawn for all restructurings with effect from April 1, 2015 with the exception of provisions related to changes in Date of Commencement of Commercial Operations (DCCO) in respect of infrastructure and non-infrastructure project loans.

5.3 As a measure to ensure adherence to the proposals made in these guidelines as also to impose disincentives on borrowers for not maintaining credit discipline, accelerated provisioning norms (as detailed in the guidelines) are being introduced.

***
