INTRODUCTION

The Statistical Tables relating to Banks in India for the year 1963 is the twenty-second in the series since the publication was taken over by the Reserve Bank in 1941 and covers banks functioning in the Indian Union, whether registered in the Indian Union or outside. The presentation of data is generally on the same lines as in previous issues. The statistics relating to assets and liabilities as well as earnings and expenses of commercial banks are compiled from special returns based on balance sheets and profit and loss accounts furnished by them, unless otherwise indicated. The Tables have been presented in two parts—Summary

and Detailed. The Summary Tables give the more important items of liabilities and assets of the several classes of banks. Banks which have gone into liquidation or which otherwise ceased to be banking companies during 1963 or which did not submit returns or balance sheets have been excluded for the year 1963. Particulars regarding the liabilities and assets of individual banks are given in the Detailed Tables. The figures for earlier years have been revised in some cases.

2. The number of banks covered by the Tables is as follows :—

Note :- These include all banks which were functioning as banking companies as at the end of December and which submitted the returns on Form 4 (A) or balance sheets. However, in Tables 10 (A) to 10 (G), 15, 19 and 20, banks which had ceased to function but which were still submitting returns under the Banking Companies Act have been covered.

* During 1963, 3 banks amalgamated with other banks, the business of 4 banks was taken over by other banks, 15 banks ceased to function due to transfer of assets and liabilities to other banking companies, one went into voluntary liquidation and 5 banks did not submit the returns or balance sheets in time.

@ For co-operative banks, the data relate to end-June.

** Urban Co-operative banks with capital and reserves of Rs. 1 lakh and over, which were hitherto being included, have not been covered ; however, information regarding distribution of offices of these banks has been included in Statements 16 (B), and 17 and Appendix I.

† With capital and reserves of Rs. 1 lakh and over.

3. The banks included in the Statistical Tables have been classified as follows :—

- (i) Reserve Bank of India ;
- (ii) Indian commercial banks comprising :

(a) The State Bank of India and other scheduled banks ;

(b) Non-scheduled banks, *i.e.* other than those included in the Second Schedule to the Reserve Bank of India Act, 1934 ;

(iii) Foreign banks whose registered offices are located outside the Indian Union; and

(iv) State and central co-operative banks and banking unions and industrial co-operative banks with capital and reserves of Rs. 1 lakh and over, registered under the laws of the States, where they are situated.

4. Banks which carry on the business of banking in India and which (a) have paid-up capital and reserves of an aggregate real or exchangeable value of not less than Rs. 5 lakhs, (b) are either companies as defined in Section 3 of the Companies Act, 1956, or corporations or companies incorporated by or under any law in force in any place outside India or institutions notified by the Central Government on this behalf and (c) satisfy the Reserve Bank that their affairs are not being conducted in a manner detrimental to the interests of their depositors, are eligible for inclusion in the Second Schedule to the Reserve Bank of India Act, 1934, and when so included are known as 'scheduled banks'. The scheduled banks are further grouped into (a) Indian scheduled banks (Class A1), *i.e.* banks having their registered offices in the Indian Union and (b) foreign scheduled banks, *i.e.* banks having their registered offices outside the Indian Union.

5. The non-scheduled banks have been classified into four categories: A2 banks, having paid-up capital and reserves of Rs. 5 lakhs and above; B banks, having paid-up capital and reserves between Rs. 1 lakh and Rs. 5 lakhs; C banks, having paid-up capital and reserves between Rs. 50,000 and Rs. 1 lakh; and D banks, having paid-up capital and reserves of less than Rs. 50,000.

6. Prior to March 1949, any company which used as part of its name the word 'bank', 'banker' or 'banking' was deemed, according to the Indian Companies Act, 1913, as amended in 1942, to be a banking company, irrespective of whether or not banking was its principal business. Under the Banking Companies Act, 1949, however, a 'banking company' has been defined as a company carrying on the business of banking in India and 'banking', has also been defined. Further, the types of business which a banking company may transact in addition to banking have also been stated precisely and minimum paid-up capital and reserves, varying with the geographical coverage of a banking company, have been prescribed. A banking company is required to use as part of its name the word 'bank', 'banker' or 'banking', while a non-banking company is prohibited from using any of these words in its name. The provision with regard to the use of the words 'bank', 'banker' or 'banking' came into force on March 16, 1951, and the stipulation with regard to capital became applicable to existing banking companies on March 16, 1952. The Banking Companies Act, 1949 was extended to the whole of the Indian Union, except the State of Jammu and Kashmir in March 1950, while the Banking Companies Rules were extended to these areas in November 1952. With effect from November 1, 1956, the Banking Companies Act, 1949 as well as the Banking Companies Rules were extended to the State of Jammu and Kashmir.

7. Data in respect of liabilities and assets as at the end of the co-operative year (July-June) relating to state and central co-operative banks as well as banking unions and industrial co-operative banks each with capital and reserves of not less than Rs. 1 lakh are given in Tables 4 and 9. In Tables 16(B) and 17 and in Appendix I, data relating to offices of co-operative banks

including those of urban co-operative banks with capital and reserves of Rs. 1 lakh and over are given as on June 30, 1963.

EXPLANATORY NOTES TO THE TABLES

8. Table I : *Liabilities and Assets of the Reserve Bank of India*. From August 15, 1947 to June 30, 1948 the Reserve Bank of India functioned as the Central Bank of the Indian Union as well as of Pakistan. The liabilities and assets relating to Pakistan for this period are given in brackets below the consolidated figures for the Indian Union and Pakistan. Figures are given quinquennially upto 1945 and annually thereafter,

9. Table 2: *Consolidated Position (Weekly) of Scheduled Banks*. The data are compiled from the weekly returns submitted by scheduled banks under Section 42(2) of the Reserve Bank of India Act, 1934, and relate to their business in the Indian Union.

10. Table 3(i) : *Liabilities and Assets of the Several Classes of Commercial Banks, 1962 and 1963*. This Table gives the details of liabilities and assets of commercial banks as given in their balance sheets. The data have been given separately for (i) the State Bank of India, (ii) subsidiaries of the State Bank of India,* (iii) other Indian scheduled banks and (iv) foreign scheduled banks. Non-scheduled banks have been subdivided into three classes according to paid-up capital and reserves (there being no D banks reporting in 1962 and 1963). This Table contains fuller details than the Detailed Tables or Summary Tables 4 and 6 which have been compiled from the special returns. As regards deposits, 'current and contingency accounts' have been grouped together in Table 3(i), while in the Detailed and other

Summary Tables, 'contingency accounts' have been separated from 'current accounts' on the basis of information obtained on the special returns and have been grouped with 'other deposits', if they are in the nature of deposits or else with 'other liabilities'. Besides, provident fund deposits, staff security deposits, *chit* and *kuri* deposits included under 'other deposits' in Table 3(i) have been treated as 'other liabilities' in the Detailed and Summary Tables.

11. Table 3 (ii) : *Income, Expenditure and Distribution of Profit of the Several Classes of Commercial Banks, 1962 and 1963*. This Table gives the details of income, expenditure and distribution of profit as given in the profit and loss account and the directors' report to the shareholders of the respective banks. According to the forms of balance sheet and profit and loss account prescribed under Section 29 of the Banking Companies Act, 1949, banks in India are permitted to disclose their income in the profit and loss account after making provision for bad and doubtful debts and other usual or necessary provisions. Accordingly, banks follow three different methods in the treatment of tax provision in the profit and loss accounts. Several banks treat provision for taxation as an appropriation of the balance of profit, while some banks charge the tax provision to the profit and loss account and others disclose their income, less provision for taxation. Some of the banks have shown for the first time their earnings for 1963 after excluding the provision for taxation. The figures for 1963 are, therefore, not strictly comparable with those for 1962.

12. Table 4: *Liabilities and Assets of the Several Classes of Banks (Total Business)*. This Table presents separately the more important items of liabilities and assets of the State Bank

* viz (1) State Bank of Bikaner and Jaipur, (2) State Bank of Hyderabad, (3) State Bank of Indore, (4) State Bank of Mysore, (5) State Bank of Patiala, (6) State Bank of Saurashtra and (7) State Bank of Travancore.

of India, other Indian commercial banks, foreign banks, State co-operative banks, Central co-operative banks as well as banking unions and industrial co-operative banks each with capital and reserves of not less than Rs. 1 lakh. The data for commercial banks have been collected through a special return based on their balance sheets. This Table presents in a consolidated form the data for individual banks given in Table Nos. 29 (ii) and 30. Figures in respect of Indian banks relate to their total business and those of foreign banks to their business in the Indian Union. Figures of reserves of commercial banks shown in this Table differ from the figures for 1962 and 1963 given in Table 3(i), in that the figures in Table 4 do not include provisions made for specific purposes such as investment depreciation fund, sinking fund, reserve for bad and doubtful debts, reserves on account of accrued interest, taxation, pension, provident fund, gratuity, etc., and funds set aside for charity, building and development. For the sake of uniformity and clarity these provisions have been treated as 'other liabilities' for purposes of all Tables except Table 3(i).

As explained in paragraph 11, different banks have been following in recent years different methods of treating the tax provision in arriving at the profit made during the year. In this Table, however, unlike in Table 3 (ii), the figures have been compiled on a uniform basis so as to show the profit made during the year after excluding the provision for taxation in the case of such banks which have shown balance of profit in the profit and loss account after providing for taxes. The figures for each bank which showed the balance of profit after excluding the provision for taxation for the first time have been adjusted not only for the year in which the change was made but also for the earlier years.

13. Table 5 : *Liabilities and Assets of Indian Commercial Banks relating to their Business in the Indian Union and Total Business.* The Table relates to commercial banks registered in the Indian Union and gives separate statistics of their business in the Indian Union and their total business.

14. Tables 8(i) and (ii): *Earnings and Expenses of Banks, 1960 to 1963.* Table 8(i) shows the total earnings and expenses of Indian scheduled banks and non-scheduled banks, each having paid-up capital and reserves of Rs. 5 lakhs and above and the earnings and expenses of foreign scheduled banks in respect of their business in the Indian Union. Table 8(ii) gives the ratios of the various items of earnings, expenses and profit to current operating earnings and the ratios of the various items of allocation, to profit. As stated earlier, these Tables are compiled from a special return submitted by banks. The earnings from investments are inclusive of taxes paid at source which have been included in item XIII(a)—provision for taxes on profits. The balance of profit or loss has been arrived at before providing for taxation and bonus to staff, uniformly in the case of all banks and is, therefore, higher than the figures shown in Tables 3(ii) and 4.

15. Tables 9(A) and (B): *Classification of Liabilities, Investments and Loans Outstanding of Co-operative Banks for the years 1960-61 to 1962-63.* The data for these Tables are furnished by the Agricultural Credit Department of the Bank on the basis of the returns submitted to them by the Registrars of Co-operatives in different States.

16. Tables 10 (A) and (B) : *Liabilities and Assets in India of Banking Companies.* These Tables are based on the monthly returns on Form XIII submitted by banks under Section 27 of the Banking Companies

Act, 1949. Table 10 (A) presents the main assets and liabilities in India of scheduled banks, non-scheduled banks and all banks as on the last Friday of the years 1959 to 1963 and Table 10 (B) as on the last Friday of each month in 1963. Scheduled banks are classified into four groups by the size of their deposits for the presentation of annual data only.

Table 10 (C) : *Principal Ratios of Banking Companies, 1962 and 1963*. This Table is also compiled from the returns on Form XIII referred to above and consolidated as on the last Friday of the years 1962 and 1963. It shows the principal ratios for scheduled banks grouped according to the size of their deposits, and also those for (i) all scheduled banks, (ii) non-scheduled banks and (iii) all banks.

Table 10(D) : *Indian Banks Classified according to the Size of their Paid-up Capital and Reserves, 1963*. This Table is based on the consolidated returns on Form XIII for the last Friday of the year 1963, and sets out the distribution of paid-up capital, reserves and deposits of Indian scheduled and non-scheduled banks according to the size of their paid-up capital and reserves.

Table 10(E) : *Indian Banks Classified according to the Size of their Reserves in relation to Paid-up Capital, 1953-63*. This Table is also based on returns on Form XIII and gives the number of banking companies classified by the size of their reserves in relation to paid-up capital as on the last Friday of the years 1953 to 1963.

Tables 10(F) and 10(G) : *Classification of Banking Companies according to (a) the Ratio of their Investments in Government Securities to Total Deposits and (b) the Ratio of Bank Credit to Total Deposits, 1962 and 1963*. Both these Tables are based on Form XIII returns consolidated as on the last Friday of the years 1962 and 1963. While the former classifies scheduled and non-scheduled banks according to the ratio

of their investments in Government securities to total deposits, the latter classifies them on the basis of the ratio of bank credit to total deposits.

17. Tables 11(A) and (B) : *Interest Rates on Deposits, Borrowings and Advances of Co-operative Banks during 1962-63*. This Table provides information on interest rates on deposits, borrowings and advances by State and Central co-operative banks in different States in the Indian Union. The data for this Table are furnished by the Agricultural Credit Department of the Bank on the basis of the returns submitted to them by the Registrars of Co-operatives in different States.

18. Table 12 : *Deposits of Scheduled Banks at Various Rates of Interest, 1963*. The data furnished in this Table are based on the returns submitted by banks to the Deposit Insurance Corporation. Separate data are furnished for groups of banks classified according to the size of their deposits. The Table includes only such deposits as are assessable for the purpose of deposit insurance premia.

19. Table 13 : *Advances of Selected Scheduled Banks at Various Rates of Interest, 1963*. The data relate to 14 selected scheduled banks and are as on the last Friday of each quarter. Advances shown against item 9 relate to loans and advances as reported in Form XIII and include 'money at call and short notice' and 'due from banking companies' but exclude 'bills purchased and discounted'.

20. Table 14 : *Money Rates, 1963*. This Table is based on data appearing in the Reserve Bank of India monthly Bulletin.

21. Table 15 : *Offices of Scheduled and Non-Scheduled banks, 1953-1963*. This Table gives the number of offices of various classes of commercial banks viz. those of the State Bank of India,

foreign and other Indian scheduled banks as well as those of non-scheduled banks. The figures are as at the end of December and are based on quarterly returns on Form IX submitted by banks under Section 23 of the Banking Companies Act, 1949.

22. Tables 16 (A) and (B) : *Distribution of Offices of Banks by Population in the different States, 1963.* Table 16(A) gives the statistics of the number of offices of commercial banks excluding offices performing purely administrative functions and temporary or seasonal offices, in the different States of the Indian Union. Banks which have not sent the required statistics for 1962 and 1963 as well as those in liquidation or which have been refused licences during 1963 under Section 22 of the Banking Companies Act, 1949, have been excluded. Table 16 (B) gives similar data in respect of offices of co-operative banks. Population figures in these Tables are based on the 'Census of India, 1961—Final Population Figures', published by the Census Commissioner of India and the data supplied by the Superintendents of Census Operations in various States. Offices situated in places for which population figures are not available are included under 'unclassified.'

23. Table 19 : *Regional Distribution of Offices in India of Banking Companies, 1963.* This Table gives the number of banking offices opened and closed in the various States and Union Territories and the net change in the number of offices during the year as well as the number of offices as at the end of December. The data relate to commercial banks and are based on the returns on Form IX.

24. Table 20 : *Distribution by Population Groups of Offices Opened or Closed by Banking Companies, 1963.* This Table gives the number of offices opened and closed and the net change in the number of offices during the year as well as the number of

offices in existence as at the end of December, according to different population groups for the same categories of banks as in Table 19. Population figures are based on the 1961 Census and the data relating to offices of banks, on the returns on Form IX.

25. Table 21 : *Distribution by State of Offices, Deposits and Bank Credit in India of Scheduled Banks, 1962 and 1963.* This Table is based on special returns received from scheduled banks. The figures relating to offices, deposits and bank credit are as on the last Friday of the year. Population figures are based on the 1961 Census.

26. Table 22 : *Liabilities and Assets in Foreign Countries of Indian Banks, 1962 and 1963.* The data are compiled from the monthly returns submitted by these banks. The figures shown in this Table are somewhat different from those given in Table 5 in that the figures in this Table are as on the last Friday of December, while those in Table 5 are compiled from a special return based on the balance sheet as at the end of December. The cash ratio is the ratio of cash and balances with the Central Bank (or balances with other banks in current account, in countries where there is no Central Bank) to total deposits.

27. Table 23 : *Debits to Current Deposits and Cash Credit and Overdraft Accounts with Scheduled Banks and Rate of Turnover, 1952 to 1962.* Figures in this Table are compiled from the returns for the Survey of Debits to Deposit Accounts submitted by the offices of scheduled banks operating at places having a population of one lakh and above in the Indian Union.

28. Table 27 : *Indian Commercial Banks which have gone into Liquidation, Amalgamated or have Otherwise Ceased to Function.* This Table shows the number, capital and deposits of commercial banks which went into voluntary liquidation or were

amalgamated or were ordered to be liquidated or otherwise ceased to function since 1954. Data in respect of banks which have ceased to function by voluntary amalgamations during the period 1954-63 and by compulsory amalgamations in 1963 under Section 44A and 45, respectively, of the Banking Companies Act, 1949, have been separately shown.

29. Tables 29 and 30 : *Detailed Tables*. Tables 29 (ii) and 30 are compiled from the special return based on the balance sheet for each individual bank as stated earlier. Table 29(i) relates to total business of foreign banks based on their global balance sheets, while Table 29(ii) relates to their business in the Indian Union as reported in the special return. Table 30 relates to the total business of Indian banks (including business outside the Indian Union). The date of registration or incorporation is shown below the name of each bank. As stated in paragraph 12, in the case of banks which have provided for taxation out of income in 1963 but have not disclosed such provision, the profits made during the year 1962 are revised to exclude provision for taxation, so as to ensure comparability of the figures.

In Table 30, the name of the town in which the registered office of the bank is located is shown after the name of the bank in column 2. The number of offices of banks outside the Indian Union is shown in brackets alongside the number of offices in the Indian Union under column 25.

30. *Appendices* : Appendix I gives the names of banks operating at

various places in the Indian Union. Offices of co-operative banks including those of urban co-operative banks as reported by the Registrars of Co-operative Societies are also included. Banks other than scheduled banks and state co-operative banks are shown in italics. In cases where the data regarding 1963 are not furnished, those for 1962 have been used. Commercial and co-operative banks which did not furnish the required data both for 1962 and 1963 are excluded. The names of the district and State in which the place is situated are shown against each place, the former being indicated in italics. Population figures are also given against each place and are based on the 'Census of India, 1961—Final Population Figures', published by the Census Commissioner of India and the population data supplied by the Superintendents of the Census Operations in the various States, and are published by the courtesy of the Registrar General. The information in respect of scheduled banks has been brought upto March 31, 1964.

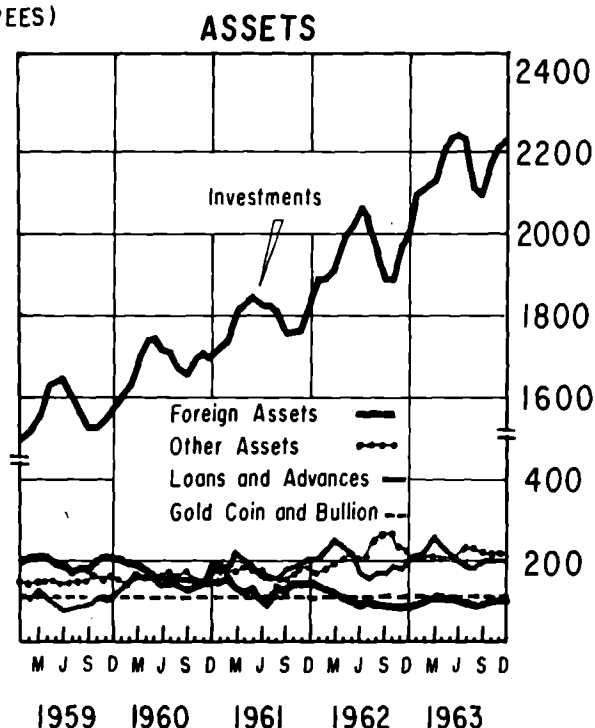

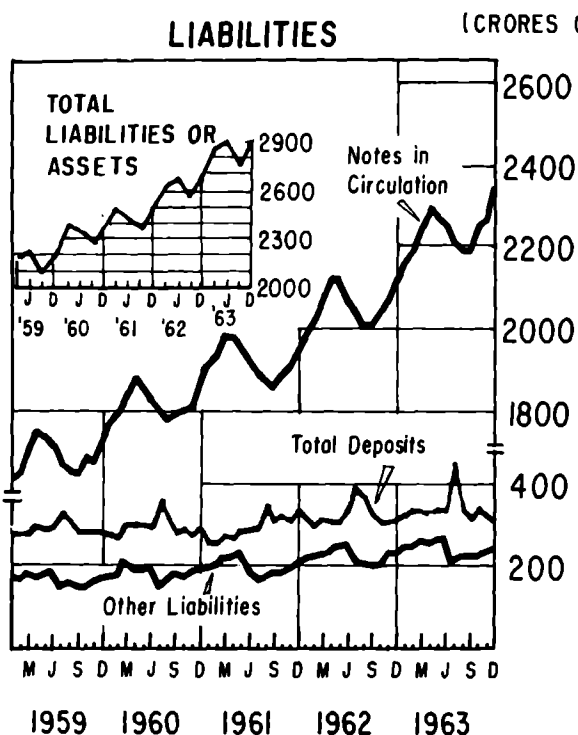

Appendix II gives deposits in centres having offices of more than two commercial banks. Deposit figures in respect of co-operative banks are excluded. Figures of deposits given in this Appendix have been taken from the special return submitted by banks.

31. Considerable assistance has been received from banks, Registrars of Companies and Co-operative Societies, and the Registrar General and Superintendents of Census Operations in compiling this publication and the Reserve Bank of India thanks them for their co-operation.

† Include credit balances in cash credit accounts.

@ Includes data relating to Government and quasi-Government bodies and business and individuals.

† Average of outstandings as at the end of June and December 1962.

Note—In this statement the rate of turnover of current deposits till 1957 was calculated by dividing the debits to current deposit accounts and cash credit and overdraft accounts during the year by the monthly average of current deposits. Debits to cash credit and overdraft accounts figures under columns (11) and (12) and debits to current deposit accounts figures under columns (5) and (6) are separately available from the beginning of 1958 only. For the years 1958 onwards, the rate of turnover of current deposits is calculated by dividing debits to current accounts during the year by the monthly average of current deposits. As such, figures shown in columns (7) and (8) for the years 1958 onwards are not comparable with the figures for earlier years. The overall rate of turnover is arrived at by dividing debits to current accounts and cash credits and overdrafts by the average outstandings of current accounts and effective cash credit and overdraft limits.
