same meaning assigned to them in the Companies Act, 1956 (1 of 1956).

Income recognition

3. (1) The income recognition shall be based on recognised accounting principles.
- (2) Income including interest/discount or any other charges on NPA shall be recognised only when it is actually realised. Any such income recognised before the asset became non-performing and remaining unrealised shall be reversed.
- (3) In respect of hire purchase assets, where instalments are overdue for more than 12 months, income shall be recognised only when hire charges are actually received. Any such income taken to the credit of profit and loss account before the asset became non-performing and remaining unrealised, shall be reversed.
- (4) In respect of lease assets, where lease rentals are overdue for more than 12 months, the income shall be recognised only when lease rentals are actually received. The net lease rentals taken to the credit of profit and loss account before the asset became non-performing and remaining unrealised shall be reversed.

Explanation

For the purpose of this paragraph, 'net lease rentals' mean gross lease rentals as adjusted by the lease adjustment account debited/credited to the profit and loss account and as reduced by depreciation at the rate applicable under Schedule XIV of the Companies Act, 1956 (1 of 1956).

Income from investments

4. (1) Income from dividend on shares of corporate bodies and units of mutual funds shall be taken into account on cash basis:

Provided that the income from dividend on shares of corporate bodies may be taken into account on accrual basis when such dividend has been declared by the corporate body in its annual general meeting and the non-banking financial company's right to receive payment is established.

- (2) Income from bonds and debentures of corporate bodies and from Government securities/bonds may be taken into account on accrual basis:

Provided that the interest rate on these instruments is pre-determined and interest is serviced regularly and is not in arrears.

- (3) Income on securities of corporate bodies or public sector undertakings, the payment of interest and repayment of principal of which have been guaranteed by

Central Government or a State Government may be taken into account on accrual basis.

Accounting standards

5. Accounting Standards and Guidance Notes issued by the Institute of Chartered Accountants of India (referred to in these Directions as "ICAI") shall be followed insofar as they are not inconsistent with any of these Directions.

Accounting of investments

6. (1)(a) The Board of Directors of every non-banking financial company shall frame investment policy for the company and implement the same;

- (b) The criteria to classify the investments into current and long term investments shall be spelt out by the Board of the company in the investment policy;
- (c) Investments in securities shall be classified into current and long term, at the time of making each investment;
- (d)
 - (i) There shall be no inter-class transfer on ad-hoc basis;
 - (ii) The inter-class transfer, if warranted, shall be effected only at the beginning of each half year, on April 1 or October 1, with the approval of the Board;
 - (iii) The investments shall be transferred scrip-wise, from current to long-term or vice-versa, at book value or market value, whichever is lower;
 - (iv) The depreciation, if any, in each scrip shall be fully provided for and appreciation, if any, shall be ignored;
 - (v) The depreciation in one scrip shall not be set off against appreciation in another scrip, at the time of such inter-class transfer, even in respect of the scrips of the same category.

(2) Quoted current investments shall, for the purposes of valuation, be grouped into the following categories, viz.,

- (a) equity shares,
- (b) preference shares,
- (c) debentures and bonds,
- (d) Government securities including treasury bills,
- (e) units of mutual fund, and
- (f) others.

Quoted current investments for each category shall be valued at cost or market value whichever is lower. For this purpose, the investments in each category shall be considered scrip-wise and the cost and market value aggregated for all investments in each category. If the aggregate market value for the category is less than the aggregate cost for that category, the net depreciation shall be provided for or charged to the profit and loss account. If the aggregate market value for the category exceeds the aggregate cost for the category, the net appreciation shall be ignored. Depreciation in one category of investments shall not be set off against appreciation in another category.

- (3) Unquoted equity shares in the nature of current investments shall be valued at cost or break up value, whichever is lower. However, non-banking financial companies may substitute fair value for the break up value of the shares, if considered necessary. Where the balance sheet of the investee company is not available for two years, such shares shall be valued at one Rupee only.
- (4) Unquoted preference shares in the nature of current investments shall be valued at cost or face value, whichever is lower.
- (5) Investments in unquoted Government securities or Government guaranteed bonds shall be valued at carrying cost.
- (6) Unquoted investments in the units of mutual funds in the nature of current investments shall be valued at the net asset value declared by the mutual fund in respect of each particular scheme.
- (7) Commercial papers shall be valued at carrying cost.
- (8) A long term investment shall be valued in accordance with the Accounting Standard issued by ICAI.

Note: Unquoted debentures shall be treated as term loans or other type of credit facilities depending upon the tenure of such debentures for the purpose of income recognition and asset classification.

Need for Policy on Demand/Call Loans

7. (1) The Board of Directors of every non-banking financial company granting/intending to grant demand/call loans shall frame a policy for the company and implement the same.
- (2) Such policy shall, inter alia, stipulate the following, -
 - (i) A cut off date within which the repayment of demand or call loan shall be demanded or called up;

- (ii) The sanctioning authority shall, record specific reasons in writing at the time of sanctioning demand or call loan, if the cut off date for demanding or calling up such loan is stipulated beyond a period of one year from the date of sanction;
- (iii) The rate of interest which shall be payable on such loans;
- (iv) Interest on such loans, as stipulated shall be payable either at monthly or quarterly rests;
- (v) The sanctioning authority shall, record specific reasons in writing at the time of sanctioning demand or call loan, if no interest is stipulated or a moratorium is granted for any period;
- (vi) A cut off date, for review of performance of the loan, not exceeding six months commencing from the date of sanction;
- (vii) Such demand or call loans shall not be renewed unless the periodical review has shown satisfactory compliance with the terms of sanction.

Asset Classification

8. (1) Every non-banking financial company shall, after taking into account the degree of well defined credit weaknesses and extent of dependence on collateral security for realisation, classify its lease/hire purchase assets, loans and advances and any other forms of credit into the following classes, namely:

- (i) Standard assets;
- (ii) Sub-standard assets;
- (iii) Doubtful assets; and
- (iv) Loss assets.

(2) The class of assets referred to above shall not be upgraded merely as a result of rescheduling, unless it satisfies the conditions required for the upgradation.

Provisioning requirements

9. Every non-banking financial company shall, after taking into account the time lag between an account becoming non-performing, its recognition as such, the realisation of the security and the erosion over time in the value of security charged, make provision against sub-standard assets, doubtful assets and loss assets as provided hereunder :-

Loans, advances and other credit facilities including bills purchased and discounted

(1) The provisioning requirement in respect of loans, advances and other credit facilities including bills purchased and discounted shall be as under :

- (i) Loss Assets The entire asset shall be written off. If the assets are permitted to remain in the books for any reason, 100% of the outstanding should be provided for;
- (ii) Doubtful Assets (a) 100% provision to the extent to which the advance is not covered by the realisable value of the security to which the non-banking financial company has a valid recourse shall be made. The realisable value is to be estimated on a realistic basis;
- (b) In addition to item (a) above, depending upon the period for which the asset has remained doubtful, provision to the extent of 20% to 50% of the secured portion (i.e. estimated realisable value of the outstanding) shall be made on the following basis : -

Period for which the asset has been considered as doubtful

% of provision

Up to one year	20
One to three years	30
More than three years	50

- iii) Sub-standard assets A general provision of 10% of total outstanding shall be made.

Lease and hire purchase assets

- (2) The provisioning requirements in respect of hire purchase and leased assets shall be as under:

Hire purchase assets

- (i) In respect of hire purchase assets, the total dues (overdue and future instalments taken together) as reduced by
- (a) the finance charges not credited to the profit and loss account and carried forward as unmatured finance charges; and

(b) the depreciated value of the underlying asset,
shall be provided for.

Explanation : For the purpose of this paragraph,

- (1) the depreciated value of the asset shall be notionally computed as the original cost of the asset to be reduced by depreciation at the rate of twenty per cent per annum on a straight line method; and
- (2) in the case of second hand asset, the original cost shall be the actual cost incurred for acquisition of such second hand asset.

Additional provision for hire purchase and leased assets

(ii) In respect of hire purchase and leased assets, additional provision shall be made as under :

(a) Where hire charges or lease rentals are overdue upto 12 months	Nil
(b) where hire charges or lease rentals are overdue for more than 12 months but upto 24 months	10 percent of the net book value
(c) where hire charges or lease rentals are overdue for more than 24 months but upto 36 months	40 percent of the net book value
(d) where hire charges or lease rentals are overdue for more than 36 months but upto 48 months	70 percent of the net book value
(e) where hire charges or lease rentals are overdue for more than 48 months	100 percent of the net book value

(iii) On expiry of a period of 12 months after the due date of the last instalment of hire purchase/leased asset, the entire net book value shall be fully provided for.

NOTES :

- (1) The amount of caution money/margin money or security deposits kept by the borrower with the non-banking financial company in pursuance of the hire purchase agreement may be deducted against the

provisions stipulated under clause (i) above, if not already taken into account while arriving at the equated monthly instalments under the agreement. The value of any other security available in pursuance to the hire purchase agreement may be deducted only against the provisions stipulated under clause (ii) above.

- (2) The amount of security deposits kept by the borrower with the non-banking financial company in pursuance to the lease agreement together with the value of any other security available in pursuance to the lease agreement may be deducted only against the provisions stipulated under clause (ii) above.
- (3) It is clarified that income recognition on and provisioning against NPAs are two different aspects of prudential norms and provisions as per the norms are required to be made on NPAs on total outstanding balances including the depreciated book value of the leased asset under reference after adjusting the balance, if any, in the lease adjustment account. The fact that income on an NPA has not been recognised cannot be taken as reason for not making provision.
- (4) An asset which has been renegotiated or rescheduled as referred to in paragraph (2) (1) (xvi) (b) of these Directions shall be a sub-standard asset or continue to remain in the same category in which it was prior to its renegotiation or reschedulement as a doubtful asset or a loss asset as the case may be. Necessary provision is required to be made as applicable to such asset till it is upgraded.
- (5) The balance sheet to be prepared by the NBFC may be in accordance with the provisions contained in sub-paragraph (2) of paragraph 10.
- (6) All financial leases written on or after April 1, 2001 attract the provisioning requirements as applicable to hire purchase assets.

“9A. Every Non Banking Financial Company shall make provision for standard assets at 0.25 percent of the outstanding, which shall not be reckoned for arriving at net NPAs. The provision towards standard assets need not be netted from gross advances but shall be shown separately as ‘Contingent Provisions against Standard Assets’ in the balance sheet.”¹³

Disclosure in the balance sheet

10. (1) Every non-banking financial company shall separately disclose in its balance sheet the provisions made as per paragraph 9 above without netting them from the income or against the value of assets.

(2) The provisions shall be distinctly indicated under separate heads of account as under :-

¹³ Notification No. DNBS.223/ CGM(US)-2011 dated January 17, 2011

- (i) provisions for bad and doubtful debts; and
- (ii) provisions for depreciation in investments.

(3) Such provisions shall not be appropriated from the general provisions and loss reserves held, if any, by the non-banking financial company.

(4) Such provisions for each year shall be debited to the profit and loss account. The excess of provisions, if any, held under the heads general provisions and loss reserves may be written back without making adjustment against them.

Constitution of Audit Committee by non-banking financial companies

11. A non-banking financial company having assets of Rs. 50 crore and above as per its last audited balance sheet shall constitute an Audit Committee, consisting of not less than three members of its Board of Directors.

Explanation I: The Audit Committee constituted by a non-banking financial company as required under Section 292A of the Companies Act, 1956 (1 of 1956) shall be the Audit Committee for the purposes of this paragraph.

Explanation II: The Audit Committee constituted under this paragraph shall have the same powers, functions and duties as laid down in Section 292A of the Companies Act, 1956 (1 of 1956).

Accounting year

12. Every non-banking financial company shall prepare its balance sheet and profit and loss account as on March 31 every year. Whenever a non-banking financial company intends to extend the date of its balance sheet as per provisions of the Companies Act, it should take prior approval of the Reserve Bank of India before approaching the Registrar of Companies for this purpose.

Further, even in cases where the Bank and the Registrar of Companies grant extension of time, the non-banking financial company shall furnish to the Bank a proforma balance sheet (unaudited) as on March 31 of the year and the statutory returns due on the said date.

"¹⁵Every non-banking financial company shall finalise its balance sheet within a period of 3 months from the date to which it pertains".

Schedule to the balance sheet

13. Every non-banking financial company shall append to its balance sheet prescribed under the Companies Act, 1956, the particulars in the schedule as set out in Annex.

Transactions in Government securities

14. Every non-banking financial company may undertake transactions in Government securities through its CSDL account or its demat account:

provided that no non-banking financial company shall undertake any transaction in government security in physical form through any broker.

Submission of a certificate from Statutory Auditor to the Bank

15. Every non-banking financial company shall submit a Certificate from its Statutory Auditor that it is engaged in the business of non-banking financial institution requiring it to hold a Certificate of Registration under Section 45-IA of the RBI Act. A certificate from the Statutory Auditor in this regard with reference to the position of the company as at end of the financial year ended March 31 may be submitted to the Regional Office of the Department of Non-Banking Supervision under whose jurisdiction the non-banking financial company is registered, ¹⁶["within one month from the date of finalization of the balance sheet and in any case not later than December 30th of that year."] Such certificate shall also indicate the asset / income pattern of the non-banking financial company for making it eligible for classification as Asset Finance Company, Investment Company or Loan Company.

¹⁷For an NBFC-MFI, such Certificate will also indicate that the company fulfils all conditions stipulated to be classified as an NBFC-MFI in the [notification DNBS.PD.No.234/CGM\(US\)-2011 dated December 02, 2011](#)".

¹⁸For an NBFC-Factor, such Certificate will indicate the requirement of holding the certificate under section 3 of the Factoring Act. The certificate will also indicate the percentage of factoring assets and income, the compliance that it fulfils all conditions stipulated under the Act to be classified as an NBFC-Factor and compliance to minimum capitalization norms, if FDI has been received.

Requirement as to capital adequacy

16. (1) Every systemically important non-deposit taking non-banking financial company shall maintain, with effect from April 1, 2007, a minimum capital ratio consisting of Tier I and Tier II capital which shall not be less than ten per cent of its aggregate risk weighted assets on balance sheet and of risk adjusted value of off-balance sheet items..¹⁹ Such ratio shall not be less than 12% by March 31, 2010 and 15% by March 31, 2011.

(2) The total of Tier II capital, at any point of time, shall not exceed one hundred per cent of Tier I capital.

(3) ²⁰NBFCs primarily engaged in lending against gold jewellery (such loans comprising 50 percent or more of their financial assets) shall maintain a minimum Tier I capital of 12 percent by April 01, 2014.

Explanations:

On balance sheet assets

(1) In these Directions, degrees of credit risk expressed as percentage weightages have been assigned to balance sheet assets. Hence, the value of each asset / item requires to be multiplied by the relevant risk weights to arrive at risk adjusted value of assets. The aggregate shall be taken into account for reckoning the minimum capital ratio. The risk weighted asset shall be calculated as the weighted aggregate of funded items as detailed hereunder:

Weighted risk assets - On-Balance Sheet items

Notes:

- (1) Netting may be done only in respect of assets where provisions for depreciation or for bad and doubtful debts have been made.
- (2) Assets which have been deducted from owned fund to arrive at net owned fund shall have a weightage of `zero`.
- (3) While calculating the aggregate of funded exposure of a borrower for the purpose of assignment of risk weight, such non-banking financial companies may net off the amount of cash margin/caution money/security deposits (against which right to set-off is available) held as collateral against the advances out of the total outstanding exposure of the borrower.

Off-balance sheet items

(2)

²² Deleted

²³ A. General

NBFCs will calculate the total risk weighted off-balance sheet credit exposure as the sum of the risk-weighted amount of the market related and non-market related off-balance sheet items. The risk-weighted amount of an off-balance sheet item that gives rise to credit exposure will be calculated by means of a two-step process:

(a) the notional amount of the transaction is converted into a credit equivalent amount, by multiplying the amount by the specified credit conversion factor or by applying the current exposure method; and

(b) the resulting credit equivalent amount is multiplied by the risk weight applicable viz; zero percent for exposure to Central Government/State Governments, 20 percent for exposure to banks and 100 percent for others.

B. Non-market-related off- balance sheet items

i. The credit equivalent amount in relation to a non-market related off-balance sheet item will be determined by multiplying the contracted amount of that particular transaction by the relevant credit conversion factor (CCF).

- i. Cash margins/deposits shall be deducted before applying the conversion factor*
- ii. Where the non-market related off-balance sheet item is an undrawn or partially undrawn fund-based facility, the amount of undrawn commitment to be included in calculating the off-balance sheet non-market related credit exposures is the maximum unused portion of the commitment that could be drawn during the remaining period to maturity. Any drawn portion of a commitment forms a part of NBFC's on-balance sheet credit exposure'.*

²⁶**For example:**

A term loan of Rs. 700 cr is sanctioned for a large project which can be drawn down in stages over a three year period. The terms of sanction allow draw down in three stages – Rs. 150 cr in Stage I, Rs. 200 cr in Stage II and Rs. 350 cr in Stage III, where the borrower needs the NBFC's explicit approval for draw down under

Stages II and III after completion of certain formalities. If the borrower has drawn already Rs. 50 cr under Stage I, then the undrawn portion would be computed with reference to Stage I alone i.e., it will be Rs.100 cr. If Stage I is scheduled to be completed within one year, the CCF will be 20 percent and if it is more than one year then the applicable CCF will be 50 per cent'.

C. Market Related Off-Balance Sheet Items

- i. NBFCs should take into account all market related off-balance sheet items (OTC derivatives and Securities Financing Transactions such as repo / reverse repo/ CBLO etc.) while calculating the risk weighted off-balance sheet credit exposures.*
- ii. The credit risk on market related off-balance sheet items is the cost to an NBFC of replacing the cash flow specified by the contract in the event of counterparty default.*

²⁶ Inserted vide Notification No.DNBS(PD). 249/CGM(US)-2012 dated August 1 , 2012

This would depend, among other things, upon the maturity of the contract and on the volatility of rates underlying the type of instrument.

iii. Market related off-balance sheet items would include :

- a. interest rate contracts - including single currency interest rate swaps, basis swaps, forward rate agreements, and interest rate futures;
- b. foreign exchange contracts, including contracts involving gold, - includes cross currency swaps (including cross currency interest rate swaps), forward foreign exchange contracts, currency futures, currency options;
- c. Credit Default Swaps; and

d. any other market related contracts specifically allowed by the Reserve Bank which give rise to credit risk.

iv. Exemption from capital requirements is permitted for -

- a. foreign exchange (except gold) contracts which have an original maturity of 14 calendar days or less; and
- b. instruments traded on futures and options exchanges which are subject to daily mark-to-market and margin payments.

v. The exposures to Central Counter Parties (CCPs), on account of derivatives trading and securities financing transactions (e.g. Collateralised Borrowing and Lending Obligations - CBLOs, Repos) outstanding against them will be assigned zero exposure value for counterparty credit risk, as it is presumed that the CCPs' exposures to their counterparties are fully collateralised on a daily basis, thereby providing protection for the CCP's credit risk exposures.

vi. A CCF of 100 per cent will be applied to the corporate securities posted as collaterals with CCPs and the resultant off-balance sheet exposure will be assigned risk weights appropriate to the nature of the CCPs. In the case of Clearing Corporation of India Limited (CCIL), the risk weight will be 20 per cent and for other CCPs, risk weight will be 50 percent.

vii. The total credit exposure to a counterparty in respect of derivative transactions should be calculated according to the current exposure method as explained below:

D. Current Exposure Method

The credit equivalent amount of a market related off-balance sheet transaction calculated using the current exposure method is the sum of a) current credit exposure and b) potential future credit exposure of the contract.

a). Current credit exposure is defined as the sum of the gross positive mark-to-market value of all contracts with respect to a single counterparty (positive and negative marked-to-market values of various contracts with the same counterparty should not be netted). The Current Exposure Method requires periodical calculation of the current credit exposure by marking these contracts to market.

b). Potential future credit exposure is determined by multiplying the notional principal amount of each of these contracts, irrespective of whether the contract has a zero,

positive or negative mark-to-market value by the relevant add-on factor indicated below according to the nature and residual maturity of the instrument.

Credit Conversion Factors for interest rate related, exchange rate related and gold related derivatives		
Credit Conversion Factors (%)		
Interest Rate Contracts	Exchange Rate Contracts & Gold	
One year or less	0.50	2.00
Over one year to five years	1.00	10.00
Over five years	3.00	15.00

i. For contracts with multiple exchanges of principal, the add-on factors are to be multiplied by the number of remaining payments in the contract.

ii. For contracts that are structured to settle outstanding exposure following specified payment dates and where the terms are reset such that the market value of the contract is zero on these specified dates, the residual maturity would be set equal to the time until the next reset date. However, in the case of interest rate contracts which have residual maturities of more than one year and meet the above criteria, the CCF or add-on factor is subject to a floor of 1.0 per cent.

iii. No potential future credit exposure would be calculated for single currency floating / floating interest rate swaps; the credit exposure on these contracts would be evaluated solely on the basis of their mark-to-market value.

iv. Potential future exposures should be based on 'effective' rather than 'apparent notional amounts'. In the event that the 'stated notional amount' is leveraged or enhanced by the structure of the transaction, the 'effective notional amount' must be used for determining potential future exposure. For example, a stated notional amount of USD 1 million with payments based on an internal rate of two times the lending rate of the NBFC would have an effective notional amount of USD 2 million.

²⁸“E. Credit conversion factors for Credit Default Swaps(CDS): 6

NBFCs are only permitted to buy credit protection to hedge their credit risk on corporate bonds they hold. The bonds may be held in current category or permanent category. The capital charge for these exposures will be as under:

(i) For corporate bonds held in current category and hedged by CDS where there is no mismatch between the CDS and the hedged bond, the credit protection will be permitted to be recognised to a maximum of 80% of the exposure hedged.

Therefore, the NBFC will continue to maintain capital charge for the corporate bond to the extent of 20% of the applicable capital charge. This can be achieved by taking the exposure value at 20% of the market value of the bond and then multiplying that with the risk weight of the issuing entity. In addition to this, the bought CDS position will attract a capital charge for counterparty risk which will be calculated by applying a credit conversion factor of 100 percent and a risk weight as applicable to the protection seller i.e. 20 per cent for banks and 100 per cent for others.

(ii) For corporate bonds held in permanent category and hedged by CDS where there is no mismatch between the CDS and the hedged bond, NBFCs can recognise full credit protection for the underlying asset and no capital will be required to be maintained thereon. The exposure will stand fully substituted by the exposure to the protection seller and attract risk weight as applicable to the protection seller i.e. 20 per cent for banks and 100 per cent for others.”

Norms relating to Infrastructure loan

20. (1) Applicability

- (i) These norms shall be applicable to restructuring and/or rescheduling and/or renegotiation of the terms of agreement relating to infrastructure loan, as defined in paragraph 2(1)(viii) of these Directions which is fully or partly secured standard and sub-standard asset and to the loan, which is subjected to restructuring and/or rescheduling and/or renegotiation of terms.
- (ii) Where the asset is partly secured, a provision to the extent of shortfall in the security available, shall be made while restructuring and/or rescheduling and/or renegotiation of the loans, apart from the provision required on present value basis and as per prudential norms.

(2) Restructuring, reschedulement or renegotiation of terms of infrastructure loan

The non-banking financial companies may, not more than once, restructure or reschedule or renegotiate the terms of infrastructure loan agreement as per the policy framework laid down by the Board of Directors of the company under the following stages:

- (a) before commencement of commercial production;
- (b) after commencement of commercial production but before the asset has been classified as sub-standard;
- (c) after commencement of commercial production and the asset has been classified as sub-standard:

Provided that in each of the above three stages, the restructuring and/or rescheduling and/or renegotiation of principal and / or of interest may take place, with or without sacrifice, as part of the restructuring or rescheduling or renegotiating package evolved.

(3) Treatment of restructured standard loan

The rescheduling or restructuring or renegotiation of the instalments of principal alone, at any of the aforesaid first two stages shall not cause a standard asset to be re-classified in the sub-standard category, if the project is re-examined and found to be viable by the Board of Directors of the company or by a functionary at least one step senior to the functionary who sanctioned the initial loan for the project, within the policy framework laid down by the Board:

Provided that rescheduling or renegotiation or restructuring of interest element at any of the foregoing first two stages shall not cause an asset to be downgraded to sub-standard category subject to the condition that the amount of interest foregone, if any, on account of adjustment in the element of interest as specified later, is either written off or 100 per cent provision is made thereagainst.

(4) Treatment of restructured sub-standard asset

A sub-standard asset shall continue to remain in the same category in case of restructuring or rescheduling or renegotiation of the instalments of principal until the expiry of one year and the amount of interest foregone, if any, on account of adjustment, including adjustment by way of write off of the past interest dues, in the element of interest as specified later, shall be written off or 100 per cent provision made thereagainst.

(5) Adjustment of interest

Where rescheduling or renegotiation or restructuring involves a reduction in the rate of interest, the interest adjustment shall be computed by taking the difference between the rate of interest as currently applicable to infrastructure loan (as adjusted for the risk rating applicable to the borrower) and the reduced rate and aggregating the present value (discounted at the rate currently applicable to infrastructure loan, adjusted for risk enhancement) of the future interest payable so stipulated in the restructuring or rescheduling or renegotiation proposal.

(6) Funded Interest

In the case of funding of interest in respect of NPAs, where the interest funded is recognized as income, the interest funded shall be fully provided for.

(7) Income Recognition norms

The income recognition in respect of infrastructure loan shall be governed by the provisions of paragraph 3 of these Directions;

(8) Treatment of Provisions held

The provisions held by the non-banking financial companies against non-performing infrastructure loan, which may be classified as 'standard' in terms of sub-paragraph (3) hereinabove, shall continue to be held until full recovery of the loan is made.

(9) Eligibility for upgradation of restructured sub-standard infrastructure loan

The sub-standard asset subjected to rescheduling and/or renegotiation and/or restructuring, whether in respect of instalments of principal amount, or interest amount, by whatever modality, shall not be upgraded to the standard category until expiry of one year of satisfactory performance under the restructuring and/or rescheduling and/or renegotiation terms.

(10) Conversion of debt into equity

Where the amount due as interest, is converted into equity or any other instrument, and income is recognized in consequence, full provision shall be made for the amount of income so recognized to offset the effect of such income recognition:

Provided that no provision is required to be made, if the conversion of interest is into equity which is quoted;

Provided further that in such cases, interest income may be recognized at market value of equity, as on the date of conversion, not exceeding the amount of interest converted to equity.

(11) Conversion of debt into debentures

Where principal amount and/or interest amount in respect of NPAs is converted into debentures, such debentures shall be treated as NPA, ab initio, in the same asset classification as was applicable to the loan just before conversion and provision shall be made as per norms.

(12) Increase in exposure limits for Infrastructure related loan and investment

The systemically important non-deposit taking non-banking financial companies may exceed the concentration of credit/investment norms, as provided in paragraph 18 of these Directions, by 5 per cent for any single party and by 10 per cent for a single group of parties, if the additional exposure is on account of infrastructure loan and/ or investment.

["(12A) Infrastructure Finance Companies may exceed the concentration of credit norms as provided in paragraph 18 of the aforesaid Directions,

(i) in lending to

(a) any single borrower, by ten per cent of its owned fund; and

- (b) any single group of borrowers, by fifteen per cent of its owned fund;
- (ii) in lending to and investing in, (loans/investments taken together)
 - (a) a single party, by five percent of its owned fund; and
 - (b) a single group of parties, by ten percent of its owned fund.”³⁵

(13) Risk weight for investment in AAA rated securitized paper

The investment in “AAA” rated securitized paper pertaining to the infrastructure facility shall attract risk weight of 50 per cent for capital adequacy purposes subject to the fulfilment of the following conditions:

- (i) The infrastructure facility generates income / cash flows, which ensures servicing / repayment of the securitized paper.
- (ii) The rating by one of the approved credit rating agencies is current and valid.

Explanation:

The rating relied upon shall be deemed to be current and valid, if the rating is not more than one month old on the date of opening of the issue, and the rating rationale from the rating agency is not more than one year old on the date of opening of the issue, and the rating letter and the rating rationale form part of the offer document.

- (iii) In the case of secondary market acquisition, the ‘AAA’ rating of the issue is in force and confirmed from the monthly bulletin published by the respective rating agency.

- (iv) The securitized paper is a performing asset.

³⁶“(14) For Infrastructure Finance Companies, the risk weight for assets covering PPP and post commercial operations date (COD) projects which have completed at least one year of satisfactory commercial operations shall be at 50 percent”.

"NBFCs not to be partners in partnership firms"

20A. (1) No non-banking financial company shall contribute to the capital of a partnership firm or become a partner of such firm.

(2) A non-banking financial company, which had already contributed to the capital of a partnership firm or was a partner of a partnership firm shall seek early retirement from the partnership firm.³⁷
